

EXECUTIVE DEVELOPMENT PROGRAM

A 12-month program designed to motivate and accelerate the development of Utah Banking Industry Leaders

2019 Executive Development Program

The current demands on bank leaders are overwhelming. While everyone is focused on compliance and profitability, it is critical that every bank stays focused on the development of its future leaders. We know that the bank leaders of tomorrow will inherit a far more complex and ambiguous environment. And that is why it is critical to expose them to a broad range of issues early in their career.

The Executive Development Program, successfully developed and implemented by the Washington Bankers Association, provides over 175 hours of structured and rigorous classes designed to greatly expand each participant's knowledge of banking and build critical leadership skills. And so far, the results have been amazing!

The Executive Development Program is a perfect opportunity to identify and recognize those talented individuals who could play a critical role in the future of your institution. Consider giving them a chance to change their future forever.

Howard Headlee
President & CEO
Utah Bankers Association

Senior executives at UBA member banks continually tell us how hard it is to find middle- and upper-management talent. This talent gap constrains the success and growth of many banks. The Executive Development Program (EDP) is a proven tool that provides up-and-comers with the critical skills to fill the gap and lead your institution to success.

The EDP is designed to challenge and enhance the organizational, performance, and leadership skills of highly motivated managers who have the potential to become future leaders in the banking industry. The yearlong program, taught by seasoned professional instructors offers a curriculum of advanced leadership and bank management strategies required for successful leadership of financial institutions in today's increasingly competitive environment.

Feedback from graduates and executive management continues to be strong. Graduates report that after successfully completing the program they are ready to take on broader job responsibilities and make a larger contribution to their bank's success.

We understand your need to continue growing the talent within your bank. The Executive Development Program will help you do just that.

EXECUTIVE DEVELOPMENT PROGRAM MENTORSHIP PROGRAM

One of the unique aspects of the EDP is the mentorship program. It was designed to pair EDP students with an executive mentor from their bank who works with them on a monthly basis to reinforce the classroom learning experience, introduce them to key executives at their institution, and pair them with business experts for assistance in their homework preparation. Each student is required to have a mentor for the duration of the program; they are expected to interact frequently with them and to use them as a sounding board to assist them in understanding topics that may be outside their current knowledge base. This is one of the few banking related executive development programs in the country where mentor and mentee are partnered to ensure the most complete development of the student.

Banking is one of the most competitive professions on the planet. The banking industry has seen numerous examples of what happens when professionals violate the rules of integrity and ethics in order to satisfy the demands of a competitive environment. This class is designed to help participants understand the principles of ethics and engage in experiential learning activities to measure how they would deal with ethical issues via case studies and hypothetical exercises.

Session Objectives

- Explore the importance of values clarification and its relationship to ethics
- Engage in a group experiential ethics and moral dilemma exercise

HOMEWORK

Participants are required to complete 6-8 hours of homework prior to each class. This prepares them to best understand the topics, challenges them to be proactive in their learning, and to seek out the advice of key individuals within their own institution when needed. After completing their individual homework the participants then confer with an assigned and diversified study group (bankers with differing skill sets) within their class to compare notes and learn how their peers approached the questions.

“Pacific Coast Banking School believes the Executive Development Program is excellent preparation for the PCBS program. The high-quality content will provide a wider breadth of knowledge about the banking industry to potential PCBS students.”
