Beyond120 is an experiential learning program exclusive to students in the College of Liberal Arts and Sciences. Since its inception in 2018, the program has provided students the opportunity to participate in a wide array of internships, exchange programs, global excursions, workshops and more.

Consistently, students share that one of the most valuable aspects of their Beyond120 experience is the ability to connect with CLAS alumni and friends.

To enhance these opportunities, we are proud to offer MentorConnect, a formal mentoring program that will help students and alumni easily connect.
