VHMA, advancing and supporting veterinary practices with connections, resources and education

"VHMA is helping me find a niche within the industry. The benefits are geared to the proactive manager and there is so much to explore!"

— Tanya Reynoso, CVPM

"Coming from a practice that historically didn't have a practice manager, VHMA resources helped me to define the position of clinic manager and shape and form that position."

— Karli Carter, CVPM

"VHMA is great for teamwork, getting to know other managers and getting out in front of how to handle practice issues."

— Kim Mackey, CVPM

"As an owner you must be knowledgeable and involved in all aspects of the veterinary practice to be successful. Although there are no simple solutions, being an active VHMA member has kept me on the cutting edge of veterinary management for over 25 years."

— Aron Tallent, DVM, CVPM

"The VHMA has been an indispensable practice resource. Our management team benefits from the high-quality, relevant continuing education resources like webinars and regional and national meetings. Managers pursuing CVPM certification have expanded their knowledge and skills. The VHMA's many networking opportunities have provided valuable insights and perspective to practice issues. Furthermore, our practices have saved time and have been able to benchmark progress by referring to the Sample Documents Library and VHMA member surveys."

— Elizabeth Fritzler, DVM, CVPM, VMG #14
